Hi Tara! Thanks for the blog post. While I was reading (read) it, I thought about my own life here in Jamaica. My father was working (work) at the local factory when he had an accident and lost his job. When that happened, I was studying (study) to become a nurse, but I had to give it up and move back home. We were living (live) in a very poor area when my brother got in trouble. A few years ago we were eating (eat) dinner when my brother came home badly hurt. We were really afraid, so we decided to move to a new area. Life is better now. – Linda
